

**Mark Aloe - Owner, CJ3 42**

I recently took delivery of 525B-0042 without the help of Derrick Schmitt and the boys from jetAVIVA my new aircraft would have had 40 squawks some minor some major after a document 22 inspection and numerous other inspections that were due prior to delivery. I cannot speak any more highly of the expertise and professionalism that Derrick showed doing the acceptance of my CJ3. It was well worth the money and saved me probably three or four more trips back to the service center after delivery which would've been on my dime.
